

Reaching me:

Enter the building through the main entrance

Take the elevator to the fifth floor (or take staircase, in such a case you need to walk one level up). Make sure you end up on the fifth floor.

If you have a card: Take the corridor to the left and walk straight through it, at the end of the corridor turn left.

If you do not have the card: Go over the bridge and turn left. Follow the wall (quite long distance) until you arrive at the last bridge. On the last bridge turn left. Once you have crossed the bridge turn left once more through the door (there'll be another door at your right, but do not take this one). Once you come through the door turn right and follow short corridor to ring the door bell.
